Nabir Vectrance Global Launches in Bangladesh to Support National Growth in Energy and Infrastructure

Bangladesh's dynamic economic growth and expanding energy sector have taken a major leap forward with the official launch of Nabir Vectrance Global, the Bangladeshi arm of international consultancy firm Vectrance.

Under the leadership of Fareed Nabir, Managing Partner of Nabir Vectrance Global and Country Manager for Vectrance Bangladesh, the company aims to deliver world-class consultancy services across traditional and renewable energy sectors. Its focus is on aligning local projects with global standards while tailoring solutions to meet the unique challenges and opportunities of Bangladesh.

With over 15 years of global experience and a proven record in project execution across the UK, USA, Canada, Australia, UAE, and beyond, Vectrance has built a reputation for delivering high-quality, safe, and sustainable solutions. Its Bangladesh office, located in Banani, Dhaka, opens a new chapter in its mission to support South Asia's energy and infrastructure transformation.

Nabir Vectrance Global provides consultancy across the entire project lifecycle, from feasibility studies and engineering design to HSE compliance and operational delivery. Its expertise covers onshore and offshore drilling, geothermal energy, and renewable energy solutions such as solar and wind. With a leadership team bringing over 40 years of combined international project experience, the firm stands ready to support Bangladesh's ambitions in energy security and sustainable development.

Fareed Nabir, Managing Partner of Nabir Vectrance Global, said, "Bangladesh is at a pivotal moment in its development journey, with strong economic growth creating urgent demand for sustainable, resilient, and innovative infrastructure solutions. Through Nabir Vectrance Global, we are bringing international expertise and global best practices to Dhaka, while ensuring that our approach remains firmly rooted in local realities.

"Our mission is not only to deliver world-class consultancy but also to act as a long-term partner for Bangladesh's energy and infrastructure future. We are here to solve problems, unlock potential and help shape a stronger, more sustainable tomorrow."

Nabir Vectrance Global's consultancy model is built on collaboration, transparency, and problem-solving. From discovery and feasibility to execution, monitoring, and handover, every project is managed with precision and accountability. By integrating global standards with local insights, the company is uniquely placed to support Bangladesh in expanding its energy capacity while transitioning towards renewables.

The establishment of Nabir Vectrance Global also strengthens Bangladesh's position in Vectrance's international network, which spans Europe, North America, the Middle East, Africa, and the Caribbean. With active projects in several countries - including the United Kingdom, Germany, Saudi Arabia, Canada, and Trinidad - Vectrance has proven expertise across multiple markets and technologies.
